

Statistical Methods Consultation Form

In order to help you most effectively, we need some information in advance so that we can better prepare. Please fill out the form in accordance with your current plans.

NAME:

1 *Please briefly describe your research questions.*

2 *What are your statistical hypotheses?*

3 Can you tell us something about your study design?

- What are your dependent variables (incl. scale of measurement)?

- What are your independent variables (incl. scale of measurement, with/without repeated measurement)?

- What is your sample composition? (how will you collect your data, sample size)

4 *Which statistical methods do you want to use?*

5 *What software are you planning to use for analysis?*

6 *What concrete problem should be discussed?*

7 *Other comments?*
